Stay Cool Handles on Slide Vents	Live Smoke In Warmer	
Thermometer	Slide Out Charcoal Basket	
Front Shelf		
Heat Baffles on Fire Box To Protect Wheels		
13" Tires		

### Recommended with the:

**TS60 - For Smoking** - we recommend using non petroleum based starters. Residue in the smoke from these starters can contaminate the cooking box with the potential to effect the flavor of the meat. The use of a torch or paper and kindling is most effective. Use approximately 20-25 lbs. of charcoal in fire box to get started. Once meat is placed in smoker, you can add wood in fire box for smoking. You can continue to use wood or charcoal (your choice). Add wood or charcoal as needed to maintain temperature where you want it.

**For Grilling** - remove bottom grate from smoker and slide in optional charcoal pan. Put in your desired amount of charcoal and slide top grate above charcoal pan.
